Pay Decrease

Imposter Syndrome

Junior Role

Big Learning Curve

In my own experience, the preconceived negatives weren't really an issue. The positives were far greater than I imagined.

# MY JOURNEY

## Teaching to Technical Writing

After seven years of teaching, I needed a new challenge!

I started to consider my skills and interests - from every aspect of life. Then, I typed every one of those skills and interests into Google, and hit search.

Once I had filtered through the mass of results, I discovered a technical writing job advertisement. When I researched the job requirements, I realised that the role was a perfect fit for me.

I rewrote my CV by categorising my experiences within sections that reflected the skills required as a technical writer - not as a list of prior jobs.

Thankfully, my CV and personalised cover letter afforded me a job offer. In that role, I gained almost ten years of experience as a technical writer. Now, I'm taking on freelance/contract projects as director of my company, Russell Technical Writing Ltd.

# TRANSFERABLE SKILLS

According to businesses surveyed by the World Economic Forum, cognitive core skills are growing in importance most quickly.

The top five core skills on the rise are listed on the right.

Hard skills can be taught on the job, but soft skills take time to develop - you may already have the skills that businesses are looking for!

**Creative Thinking**

**Analytical Thinking**

**Technological Literacy**

**Curiosity and Lifelong Learning**

**Resilience, Flexibility and Agility**

# KEEP LEARNING

There are valuable opportunities all around us.

## FIND THEM

Search the internet for online courses in your field of interest - some are free.

Try volunteering to gain experience or skills.

Look on LinkedIn for others currently working in the industry. Or join a relevant society/professional body.

Sign up for networking events.

## USE THEM

Consistently spend time each week actively learning or developing skills.

Try using your skills to create material for a portfolio / evidence in interviews.

## TELL THEM

Update your CV and create a covering letter template.

List or explain your skills and highlight any training that you have completed or are currently working on.
